The following is an examiner's statement of reasons for allowance: While claims 48 and 50-52 would appear to be *prima facie* obvious over Suzuki et al. (JBC 260:6518, 1989) in view of Bisgard-Frantzen et al. (WO95/10603) as explained in the rejection of previous claims 30-33, 35 and 37-39 in the Office Action mailed, 7/29/03, the declaration of Dr. Torben Borchert submitted 9/7/04 establishes that the claimed variants exhibit unexpectedly large increases in thermostability when compared to the increases in thermostability obtained for the corresponding mutations taught by Suzuki et al. As such the claimed variants are non-obvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
